Presides over the SADAS

From the President's Desk

Before talking about this year's 'Marghazhi' Festival, let me share a couple of exciting developments with our members, rasikas and well wishers. A new, top of the line, world class audio system befitting the stature of the Academy and its famed auditorium has been commissioned in June 2025. Based on the feed back from the rasikas and in order to satisfy a long felt need, Online ticket sales for both music and dance would be introduced from this season in a measured way. Needless to say, physical sales at the venue will continue as always.

The New audio system

While our audio and acoustics system has been widely considered among the best in the city, there were indeed some challenges, given the size and complexity of our auditorium, with a large seating capacity, very steep balcony and row of seats under the balcony. There were some issues like uneven sound quality in some rows of seats, a few void zones, some echo etc. This has been exercising the minds of our committee for some time now. A decision was taken last year to go in for a top of line, world class audio system especially with the Academy fast approaching the historic milestone of a hundred years of existence. After a detailed study with the help of an eminent sound engineer, Shri Sai Shravanam, a top end system from a leading international brand, L-Acoustics of France, was ordered last year. It has been commissioned in June 2025. I am proud to say that the new audio and acoustics system represents a leap of audio technology and experience. It can cater to other genres of music as well and there is no need for any outside system by hirers for other genres of music. A detailed write up on the new system appears both in the Souvenir as well as on the Academy's website.

Online ticket sales

We are making a start with online ticket sales for both Music and Dance festivals from this season, applicable to both season and daily tickets in a controlled manner. Physical sales at the venue will undoubtedly continue as before. The date for commencement of online season ticket sales will be 2nd December, 2025 as in the case of physical sales. Daily tickets can now be bought even two days prior to the day of the concert and on the actual day, both online and at the venue. For the detailed modalities of buying tickets online and the prices of tickets, rasikas may look out for notification on the Academy's website.

99th Annual Conference and Concerts

This 'Marghazhi season' will mark our 99th Annual Conference and

THE MUSIC ACADEMY MADRAS

Concerts that is within a whisker of the historic century of our famed Annual festivals. Music Maestro Mr. A.R. RAHMAN, will inaugurate the festival on 15th December 2025 and Dr. N. RAJAM, Emeritus Professor and former Dean, Faculty of Performing Arts, Banaras Hindu University, has consented to preside over the Sadas on January 1, 2026.

The annual music festival will be held between December 15, 2025 and January 1, 2026. The outstanding Violinist, Sri. R.K. Shriramkumar, will be awarded the "Sangita Kalanidhi" Birudu at the Sadas on January 1, 2026.

In commemoration of the great composer Muttuswami Diksithar's 250th birth anniversary year, the morning academic sessions are dedicated to him and an overwhelming number of lecture demonstrations will be centered on his compositions.

Several eminent scholars and musicians will deal with different facets of his compositions and his monumental contribution in enriching Carnatic music as a whole.

The journal is being released on the inaugural day of the Annual Music Festival as is the tradition.

Dance Festival

The Dance Festival has evolved into an eagerly anticipated signature event. The Nineteenth edition of the Dance Festival is being held between January 3 and January 9, 2026.

Mr. TAKAHASHI Muneo, Consul-General, Consulate General of Japan in Chennai, has kindly agreed to inaugurate the Dance Festival and confer the "Nritya Kalanidhi" award on the eminent Bharatanatyam exponent and guru Smt. Urmila Satyanarayanan on January 3, 2026.

Acknowledgements

The sustained support and participation of members and that of other rasikas that the Academy has been receiving in abundant measure would undoubtedly help ensure yet another highly successful festival. Further, the generous support of our sponsors and advertisers has always helped the conduct of an event of high quality, helped by the active involvement and teamwork of our colleagues on the Executive Committee. The dedicated and hardworking volunteers and staff of the Academy, deserve our special appreciation for having contributed in no small measure to the consistent success of the festival.

The high level of performances by the musicians, artistes, musicologists and scholars has always put the Academy's festival on a high pedestal.

Finally, I wish you all a very enjoyable and exhilarating season of Music and Dance and a very Happy New Year.

The Music Academy's new, world class audio system

It was in 2023, when I was in charge of sound design and production for a Bharatanatyam programme by a leading artist, that I experienced the existing audio system at The Music Academy, Madras. During the show, I realized that there were many sonic voids in the auditorium's ground floor, which denied a uniform sound experience from the audience's point of view.

This prompted me to share a detailed account of my experience with the President of The Music Academy via email. I was immediately invited by him to study the acoustics in relation to the PA system output and to scientifically demonstrate the existing issues. This was duly carried out and presented to the President and a few members of the Executive Committee. After being convinced by our findings, the President commissioned me to explore prospective PA solutions.

After a thorough evaluation of various sound reinforcement brands, taking into account their pros and cons, and considering my previous experience, L-Acoustics, the world's leading sound brand, was finalized for The Music Academy.

A complete acoustic study of the hall was undertaken again, and the findings were shared with the Chief Designer for the project, Adriaan Van Der Walt. Discussions focused on the advancements and challenges in sound

THE MUSIC ACADEMY MADRAS

I shared my insights on the sound of Indian music, highlighting its complexity. I explained that Indian music is horizontal in structure, with accompanying musicians typically following and cascading behind the lead artist, resulting in a frequency build-up over the same octave. This characteristic, combined with the limitations of acoustics, microphones and PA systems, affects the overall sound quality during classical performance amplification.

Adriaan outlined the technical aspects of sound system design, emphasizing the importance of clear sightlines and consistent sound pressure levels for all audience members. He discussed the use of SoundVision (L-Acoustics 3D sound designing and mapping software) in the design process to ensure flat tonal response, as well as the necessity for real-time adjustments during installation.

Rajan Gupta, from Hi-Tech Solutions, Delhi, was chosen as the vendor for the project. He attended a meeting with the President of The Music Academy to discuss the bill of materials based on the SoundVision study conducted by Adriaan. The dealer suggested that among the various speaker models available from L-Acoustics, the KARA series would be the most suitable. Attention then turned to selecting the audio console, and based on prevailing trends, it was decided to procure a DiGiCo audio mixer.

A total of 52 speakers including 8 sub woofers were deployed in the auditorium and on stage. Out of the above as demonstrated in the design by

Courtesy: Rajiv Menon

THE MUSIC ACADEMY MADRAS

Adriaan, two sub woofers were placed in the pit in a specially erected one-foot platform, well-grounded with pads to prevent any acoustic vibration. Two sub woofers were placed on the left and right extreme positions of the stage. This resulted in a very even bass response across the auditorium. The rest of the speaker arrays including four sub woofers were all flown, securely hung with steel ropes.

Adriaan Van Der Walt also spoke about his dual role as a mixing engineer and system designer, noting how his background in theatre influenced his approach. He stressed the importance of even sound pressure levels and the seamless integration of various components to create a magical experience for the audience. I echoed these sentiments, emphasizing the role of the human ear in tuning sound systems and the delicate balance between technical precision and artistic expression. We agreed on the need to align client expectations with the inherently subjective nature of sound, particularly highlighting the final listening test with the President as a key moment for project refinement.

Adriaan and I acknowledged the collaborative efforts that helped overcome several challenges, underlining the importance of effective communication and mutual respect among stakeholders as critical to the project's success.

Once the installation and wiring were completed, a live sound test was conducted over three days, during which Adriaan carried out system calibrations. A new audio team, headed by Sriram Ravi, was appointed taking into account their prior experience with similar setups. This team was also present throughout the installation and calibration process.

As part of the revamp, two new 30 kVA UPS systems, dedicated entirely to the PA system, were also commissioned. Dedicated earth pits were designed and constructed for the system as well. Power and audio wiring were redone entirely by Alagar Electricals. Adriaan personally trained the audio team on operating procedures and diligently supervised each member in adhering to the SOPs. He was confident that the team was highly capable of handling the system with professional finesse.

The system was officially handed over to The Music Academy, Madras, during the last week of April to enable them to conduct a series of test concerts—allowing the audio team to thoroughly familiarize themselves with the SOPs.

THE MUSIC ACADEMY MADRAS

Origin

The history of The Music Academy goes back to the mid-twenties. Several well wishers and lovers of music had felt that steps should be taken -- to stimulate interest in Carnatic music in the South and to develop a musical culture along sound lines -- by establishing an Academy in Madras city. The idea took a definite shape when the All-India Music Conference held in Madras in 1927 passed a resolution recommending the organisation of a Music Academy in Madras for the purpose of fostering Indian music and to encourage the study of the theory and practice of music.

A meeting of the Reception Committee of the Conference held on 5th March 1928 elected a provisional Executive Committee to organise the Academy. In pursuance of that resolution, The Music Academy Madras was founded the same year.

In April 1928 an Experts' Committee consisting of some of the leading musicians and scholars was also elected to advise the Academy on all technical matters including music education on correct and modern lines. The members of the Committee were Sarvasri Bidaram Krishnappa, Ariyakudi Ramanuja Iyengar, Palladam Sanjeeva Rao, Pudukottai Dakshinamurthi Pillai, Prof. Dwaram Venkatasami Naidu, Jalatarangam Ramaniah Chetti, Zamindar of Seithur, M.S. Ramaswami Aiyar, W. Doraiswami Iyengar, Rao Bahadur C. Ramanujachariar, T.L. Venkatarama Iyer, T.V. Subba Rao and P. Sambamurthy, a galaxy indeed.

After some preliminary work and enrolment of members, the Academy was formally inaugurated at a public function on 18th August 1928. The opening ceremony was performed by Sir C.P. Ramaswami Iyer at the Y.M.C.A. Auditorium, Esplanade, before a large and distinguished gathering.

The Office of the Academy was located at No. 323, Thambu Chetty Street, where Dr U. Rama Rao, the founder President had his dispensary. In later years it moved office

to 8, Philips Street (1935-38), then to 306, Thambu Chetty Street (1939), to Kasturi Buildings, Royapettah (1940-42), and to Kesari Kuteeram, Royapettah (1942-46) before shifting in 1946 to its present location.

Since its inception, the Academy has been ceaselessly endeavouring for the advancement of the science and art of Indian music.

The objects of the Academy, inter-alia are: to hold annual music conferences during December or at any other convenient period; to investigate, collect, preserve and publish compositions, manuscripts and books relating to music; to establish and maintain a library and a museum to publish a journal; to encourage and help deserving musicians and scholars by bringing them to the notice of the public; to help and conduct examinations, tests and competitions; to make representations from time to time to the authorities in all matters relating to music. In short, it is the endeavour of this institution to give to music its rightful place in our national life.

Dr U. Rama Rao was the founder President of the Academy and Sri K.V. Krishnaswami Iyer succeeded him. Under his leadership with a band of selfless workers, the Academy developed and expanded its activities. Sangita Kalanidhi T.L. Venkatarama Iyer, Sri T.S. Rajam, Sri K.R. Sundaram Iyer and Sri T.T. Vasu were its third, fourth, fifth and sixth Presidents respectively. The current President Sri N. Murali is the seventh President of The Music Academy.

Before the present building (T.T. Krishnamachari Auditorium) was constructed in 1962, the annual conferences were held at various places in the city.

2. Mani Iyer's Hall, Triplicane, 1930

Seven years later, on the eve of the 36th Conference, H.H. Maharaja Sri Jayachamaraja Wodeyar, Governor of Madras, declared the new building open. Such a major milestone was achieved by the Academy, largely due to the sustained interest and dynamic initiative of Late Sri Kasturi Srinivasan and Sri T.T. Krishnamachari. | |

The ground floor seats were replaced in 2007 with modern and comfortable ones from a leading firm in Mumbai, together with carrying out the necessary flooring work.

The balcony seats were then replaced in 2008 with modern and comfortable ones from a reputed firm in New Delhi together, and the necessary flooring work was done.

It may be particularly pointed out that in the balcony, necessary civil work was also carried out to make the very high rising steps less steep and to provide greater space and legroom for all the rows of seats. This was done keeping in mind both comfort and safety aspects. It is particularly gratifying to note that the ambience in the balcony -- with excellent acoustics and very comfortable seating -- has been significantly enhanced from the 2008 season. Adequate flooring

THE MUSIC ACADEMY MADRAS

lights have been provided for the comfort of our members and rasikas in the balcony as in the ground floor.

The much needed, important work relating to replacement of transformer with a higher capacity one and its consequent shifting from the front side to the rear of the building was completed. The other connected, major electrical works were also completed. The western side of the Auditorium, at the rear, has been developed for a permanent location for the cafeteria, freeing up some of the current canteen space for additional parking facilities.

The Academy now has separate entrance and exit gates that has reduced congestion and traffic hold-ups within and outside our premises.

The new Bose Acoustics system was installed before the commencement of 2007 season and in view of our high quality, state-of-the-art audio system, the members have now the pleasure and experience of enjoying the season.

Significant improvements to infrastructure have continued over the years.

Functionally, a new 320 KVA Generator has been installed to ensure that we are self-reliant in power that is so essential in an environment of power shortages and cuts.

To make the Academy's external environment more beautiful with some greenery, saplings have been planted along the compound wall with the help and initiative of the forest department. Landscaping and horticulture have also been taken up to lend natural beauty and colour to the campus.

A major, comprehensive project for greatly transforming and contemporising the decades-old stage with appurtenances and its lighting arrangements was completed before the 2009 season.

A modern and nice looking canopy made of tensile membrane has been installed in the cafeteria for the benefit of members and rasikas.

A major component of the ongoing improvement programme was completed

before the 2010 season. It involved renovation and upgradation of the foyer, both in the ground floor and the first floor, changes in the lobby for Patron members, enhancing the lighting with additional fittings in the foyer, enhanced aesthetics in the foyer with new wooden panelling and glazing, shifting of the ticket counter, and new acoustically-oriented panels inside the auditorium. Equally important was changing the alignment and bringing the focus on the main entrance to the Cathedral Road side as it was originally, walkway all round the auditorium for easier access, earmarking standardized areas for driveway and parking, and shifting the gate at the Cathedral Road (that was closed for years) further west to enable its use as an exit gate which has now been allowed by the Traffic Police authorities. Traffic jam and congestion at the TTK Road Gate has been considerably eased as the gate now serves only as the entry gate.

This major project in all its phases was done under the expert guidance and supervision of our fine Architect Sri P.T. Krishnan who has brought to bear his immense commitment, expertise and interest in restoring and upgrading heritage buildings, to our ongoing modernization works as a measure of his labour of love and passion.

Subsequently improvements in the form of a more efficient stage lighting system and LED lighting in the auditorium, with an advanced dimmer system have been completed in addition to a proper rewiring of the auditorium. Rain water harvesting system has also been refurbished and improved. The upgradation and facelift of the library was completed in October 2015, with the library now sporting a modern, state-of-the art look.

The project for the enhancement and upgradation of the old building and classroom infrastructure of the Advanced School of Carnatic Music was completed in July 2016. It is now on par with the other buildings and infrastructure in the complex.

During the year 2017, the lifts that were installed in the auditorium over twenty five years ago were replaced with new lifts.

THE MUSIC ACADEMY MADRAS

In 2018, the air conditioning plant in the main auditorium was replaced by a more modern, energy efficient system. A major acoustics upgradation project was undertaken in the Main Auditorium which was shut down for three months until mid-July 2019. It involved a comprehensive project relating to new customised, modern, high fidelity audio and acoustics system, extensive acoustical treatment and installation, replacement of decades old air-conditioning ducting, related civil and electrical work, major enhancement of stage and stage light fittings and accessories and replacement of the seating system in the balcony with a new one.

The integrated approach to auditorium acoustics and specialized audio system design has resulted in a very high quality and true to life, realistic reproduction of the musicians' performance.

In the year 2020, a major comprehensive project for greatly transforming and contemporising the several decades old stage in the T.T. Krishnamachari Auditorium with appurtenances and new lights was implemented. The stage now has in-built lighting and other facilities for a variety of programmes. Two new Generators of 140 KVA and 250 KVA in the place of old 125 KVA and 250 KVA were installed with sync panel in puff room in addition to the existing 320 KVA Generator. Civil and electrical work were also involved. As a permanent measure of additional precaution, we have installed UV lamp-based system to facilitate disinfecting the air circulating in the air conditioned auditorium.

During 2021, a 120 KVA UPS was installed for providing uninterrupted power supply to main hall stage lights. Civil work modifications in canteen area and electrical room were also carried out. All manual changeover switches were replaced with auto changeover switches for continuous power supply to the entire Music Academy premises, except Mini Hall. Civil work to address cracks and water leakage in the main hall were also completed during this period.

Electronic sensors have been provided in all the toilets.

During 2022, there was no major capital expenditure incurred during the year. Electrical installation, testing and commissioning of auto changeover switch, replacement of electrical panel and related electrical and civil work were completed. Replacement of various lights, fittings and accessories was carried out.

During 2023, new stage monitors and some audio equipment for main hall have been purchased. Sensors for maintaining uniform A/c temperature inside the main hall have been installed.

During 2024, the capital expenditure incurred was not very significant. Some of the main items under this head included stand-alone split AC units for improving the cooling under the balcony and the rear of the ground floor of the main auditorium; new lighting accessories like Dimmer Pack, and a lighting console for the mini hall.

During 2025, new state of the art L-Acoustics audio and acoustics system has been installed. A new room has been constructed for installing UPS and two 30 KVA UPS was installed for providing uninterrupted power supply to facilitate the smooth working of the newly installed audio system. Mac Mini CPU for Audio Console and Apple ipad for Audio Console and Light Console has been purchased. Compound wall on the east side was reconstructed. A comprehensive revamping of the electrical panel board was done to facilitate Audio augmentation. The old CCTV cameras were scrapped and new CCTV cameras were installed to cover the entire premises.

New State of the art Audio and Acoustics System

Our acoustics and audio systems have been among the best in the city and have undergone two major enhancements over the last 20 years. Good as they were for our needs, given the size and complexity of the auditorium with a large seating capacity, a very steep balcony and rows of seats under

THE MUSIC ACADEMY MADRAS

the balcony, there were some issues like uneven sound quality in some areas of the auditorium, some void zones, some echo etc. Further the system could not cater to other genres of music like light music with a large orchestra, fusion music, western music and the like for which there is a great demand for auditorium hire.

For sometime, the need was felt for vastly enhancing the audio and acoustic quality in the auditorium with a new state of the art, top of the line, world class audio and acoustics system that will befit the stature of our auditorium. This has also been motivated by the fact that the Academy is fast approaching the very significant landmark of a hundred years of existence. The new audio and acoustics system should showcase world class audio and acoustics technology and experience.

After a detailed study with the help of an eminent sound engineer and expert, Shri. Sai Shrovanam, a top end system from a leading International Brand, L-Acoustics of France was identified, order placed during the year and installation has been subsequently done in April 2025.

The system has a total number of 52 latest KARA speakers, requisite accessories, quality amplifiers and a Digico audio quantum console system with multiple channels and can cater to any genre of music without the need for any outside system. It has been meticulously designed after detailed study by the sound and acoustics experts of the suppliers and tailor made to meet the complexities of our auditorium.

It has been installed, calibrated and testing and finetuning has been done and the whole system put into use from June 2025. The audio quality and clarity is uniformly high throughout the auditorium, both in the ground floor and balcony and there are no void zones or echo. It is our firm belief that the new system represents a leap of acoustical technology and quality and the new system would compare favourably with that in any world class auditorium.

Kasturi Srinivasan Building

The Kasturi Srinivasan Building constructed in 1982, houses the mini-hall, library, office, digital archives and research centre.

Mini-Hall

With a major part of the renovation of the main auditorium being completed before the 2010 season, the committee then turned its attention to the mini-hall whose renovation was long overdue. The major upgradation and transformation of the mini auditorium has been possible through the single largest donation from Sri Shiv Nadar Foundation (referred to earlier). The major, comprehensive renovation and modernization of the mini hall taken up from June 2011 was accomplished in November 2011. The upgraded modern auditorium has a seating capacity of 225. It now has modern acoustics, a fine new sound system, new comfortable seating system in a gradually sloping gallery arrangement, new air conditioning, new stage with elaborate light fittings, pleasing aesthetics and a larger and more pleasant foyer, a lounge, modern toilets and access for differently abled persons.

Most fittingly, the new facility was opened with the HCL Series Concert on 12th November 2011.

We wish to emphasise here how fortunate the Academy is to receive the benefit of the immense expertise and experience of our very fine Architect Sri P.T. Krishnan in all its modernization projects. With his deep commitment and involvement, he has been so generous with his time and efforts, that no words of appreciation and gratitude would do adequate justice to his tremendous work of passion and labour of love.

and Smt. Ramani – were completed in the year 2023 - 24. These interview sessions have been video archived with the help of professional videographers. Transcription of these interview sessions has been done. These interviews and interactions will help build an archive with diverse oral history narratives, thereby setting the base for an in-depth study and insightful research perspectives.

S Kirthana works on various activities related to the projects of MARC, the oral history archive project in particular, and others like content creation for book descriptions, video snippets, etc.

Spontaneous support has been received from generous donors for our research activities.

Music Academy-Tag Digital Listening & Viewing Archives

The Archives has had with it several music tapes donated by the families of Sri G. Narasimhan, Sri S. Natarajan and by Sri P. Obul Reddy and Smt Padma Narasimhan.

These archives consisting of music tapes constitute a treasure trove. Digitizing these archives through the use of modern technology will enhance the storage, value and use of these priceless archives.

A long time dream project of digitizing Academy's music recordings has been successfully fulfilled. The Academy has now in its possession its own recordings as well as those donated by well wishers of about 12,000 hours. Sri R.T. Chari, former Vice President of the Music Academy and a passionate connoisseur of fine arts and heritage, particularly Carnatic music, has handed over a collection of about 6000 hours of Carnatic music to the Music Academy's archives besides setting up The Music Academy - TAG Listening Archives at his cost which has 10 PCs with ear phones through which connoisseurs can listen to any individual musician or a composition or a concert of their choice. This was inaugurated in 2008. The Music Academy is indeed grateful to Sri R.T. Chari representing TAG Corporation and Ramu Endowments for this

wonderful generosity. The Music Academy-Tag Digital Listening Archives had made steady progress since then.

Many well-wishers have come forward to donate copies of their recordings to our digital archives. Notably, we have received several hours of recorded music through the munificent donation of Sri AL ARC Narayanan, Sri L. Raghavan from Boston, USA and Sri Sethuraman Thirumalai and some Dance video programmes by Smt Sujatha Vijayaraghavan, Committee member. The Academy also appreciates the donation to its Archives recordings of father and father-in-law of Advocate Smt Radhika Krishnan. Recently, Dr. Ramesh Balasubramaniam generously donated over 1000 hours of Carnatic music recordings of his father Dr. J. Balasubramaniam. This was possible through the good offices of Sangita Kalanidhi Umayalpuram Shri. K. Sivaraman. The Committee gratefully acknowledges the donation. As of now we have about 6,942 concerts of music available, comprising of 64,654 tracks featuring 825 artistes. Lecture Demonstration section consist of 1018 numbers featuring over 485 musicologists / Scholars.

The Music Academy has introduced the viewing facility of Dance Festivals in Digital Archives from June 28, 2013. We have around 652 hours of dance programmes, comprising of 466 dance programmes and 86 hours of Lecture Demonstrations consisting of 64 programmes. Besides listening to digital recording of music concerts, rasikas can now view 77 music video concerts consisting of 103 hours.

Digital Transformation of Archives

The archival systems, after serving effectively for over fourteen years, have reached the end of their functional life amid rapid technological advances. To modernize and streamline operations, a new project was initiated in 2022 under the supervision of Savita Narasimhan, SLLashman with the help of the archives team and in collaboration with IT expert V. Suresh. Following an evaluation of several Digital Asset Management (DAM)

THE MUSIC ACADEMY MADRAS

platforms, EntermediaDB was chosen for its cloud-based model, open-source flexibility, and advanced metadata features capable of supporting domain-specific taxonomy for Music, Dance, and Lecture-Demonstrations. This system enabled precise tagging, efficient searchability, and secure online access, thereby enhancing academic and research potential. As of November 2024, metadata and audio migrations are nearly complete, with extensive quality checks in progress, alongside resumed digitization of spools and cassettes. Given the inherent limitations of Entermedia DB, an upgraded, purpose-built software—developed by Mr. Suresh—was successfully deployed. This project was supported by generous corpus donations from Sri V. Srivatsan and Smt. R. B. Anandhy.

In the new system, significant enhancements were implemented, including advanced search tools, a refined concert-upload process with quality verification, and a user-friendly interface that aligns with the Academy's visual identity. All concerts up to December 2024 have been uploaded, and the team is proficient with the new system's procedures and controls. After completing the uploading of the music collection, the framework was extended to the Dance collection, introducing detailed and adaptable metadata structures suited to its varied forms; sample concerts have been validated and migrated to the live system. Simultaneously, all physical materials—cassettes, CDs, and spools—have been meticulously packed, labelled, and relocated to secure storage to ensure their long-term preservation and accessibility.

Following this, the team is now working on building the digital architecture for the Academy's Lec-dem collections.

Not the first word. But the final word.

Breaking news alerts. Push notifications. Constant updates. Some media machines never stop.

But remember what you are really subjected to. Half-formed facts. Unverified claims. "Sources say."

Retractions buried where no one sees them. And truth sacrificed at the altar of speed.

Result? Confusion. Anxiety. And whiplash from constantly changing narratives.

Which version do you believe? The 9 AM update? The noon correction? Or the 3 PM reversal?

While others race to publish whatever fragments they've gathered, we pursue the complete picture. Our journalists dig deeper. Question relentlessly. Verify methodically. Connect the dots that others miss in their hurry.

We don't chase the first headline. We craft the definitive account. The one that stands when the noise fades. The one that history remembers.

Tomorrow's paper won't tell you what might have happened today. It will tell you what did happen today. Thoroughly. Accurately. Definitively.

Wake up to the truth

Presidential address by Sangita Kalanidhi designate
Vidwan Sri. R K Shriramkumar
at the 99th Annual Conference and Concerts
at the Music Academy Madras (15-12-2025)

Shri Ganesha Sharada Gurubhyo namah.
Namaskarams and a very good evening to all of you.

Respected President of The Madras Music Academy Shri N Murali, esteemed Chief Guest, master composer, Oscar Awardee, Vidvan Shri A R Rahman, members of the executive committee, members of the experts' advisory committee, venerable Vidvans, Vidushis, dear friends and ardent rasikas, I deem it a great honour and blessing to stand before you today on this prestigious stage of the Music Academy, an organisation that has fostered the arts for nearly a century now. The honour of being chosen to preside over its 99th annual conference and receive the prestigious title of Sangita Kalanidhi makes me profusely elated and deeply humbled.

This great honour is due to the grace and blessings of Sri Sharadamba, all my gurus, and numerous well wishers from all over the world. Anantakoti namaskarams at the lotus feet of my revered Acharyas, Shri Abhinava Vidyatirtha Mahasvamigal, Shri Bharati Tirtha Mahasvamigal and Shri Vidhushekhara Bharati Mahasvamigal, the Jagadgurus of Dakshinamnaya Sringeri Shri Sharada Peetham, Their benevolent blessings, words of wisdom and unconditional kindness have always been my guiding force. Anantakoti namaskarams to Sri Vimarshanandanatha Sarasvati Mahasvamigal and the Acharyas of Bhaskara Prakasha Ashrama, Sri

Jnanananda Tirtha Mahasvamigal, Sri K R Yajnaratna Dikshitar and Sri K R Ramakrishna Dikshitar, in particular, for their generous, affectionate and profound guidance.

I bow my head in utmost reverence to my parents Smt Kusuma Krishnamurthy and Shri R V Krishnamurthy and to my gurus Vidushi Smt Savitri Satyamurthy, my grandfather Vidvan Shri R. K Venkatarama Shastry, Sangita Kalanidhi Shri D.K. Jayaraman and Vidvan Shri V.V.Subrahmanyam each of whom has sculpted me into who I am today.

Music, Carnatic music in particular, has been an integral part of our household. I am extremely fortunate to have been raised in an ambience of this wonderful art form. Growing up with music has been one of the greatest gifts in my life. An engineer by profession, my father was also a fine vocalist and my dynamic mother was a vina player. They sowed the seeds of this art form in me at a very early age. My sisters Srimathi, Lakshmi and Matangi have heartily supported my journey in music. My wife Akhila is my immense source of inspiring strength and support. I'm very thankful to all of them.

It was Smt Savithri Sathyamurthy who laid the foundation for my violin playing. Holding my hand with love, she imparted the early lessons and exercises.

Later, coming under the wings of my illustrious grandfather Vidvan Shri R

THE MUSIC ACADEMY MADRAS

K Venkatarama Shastri opened up a panoramic view of the world of carnatic music. He was not just a violinist. A highly respected Vidvan of his times, his holistic knowledge and vision of the art was amazingly inspiring. A strict disciplinarian and a rigorous teacher, he imparted focus and discipline, while also setting the tone for my musical integrity. A deeply devout and spiritual man, his reverence in performing the Shri Tyagarajasvami Aradhana at Tiruvaigyaru for many years has blessed our family with a lot of goodness. It has also subsequently brought the good fortune of me performing the Aradhana for many years now. His deep insight into carnatic music, be it about the colossal compositions, or manodharma, has inspired me to appreciate and delve deeper into the nuances of the art form in its varied dimensions. His presence gave me the opportunity to interact with several maestros of the carnatic world and benefit from their musical erudition. The guidance I have received from reputed musicians within my own family such as my grand uncles Shri R K Narayanaswamy, Shri R K Ramanathan, Sangita Kalanidhi Shri. R. K. Srikantan, my uncles Sangita Kala Acharyas Shri R N Thyagarajan and R N Taranathan, Shri R S Ramakant, my aunts Dr R N Srilata, Smt Ratnamala Prakash has been invaluable. With this kind of exposure into the hallowed world of Carnatic music, in-house, as it were, began my fledgling steps into what has blossomed into a lifelong passion, something that defines me, and verily gives meaning to my existence.

It was again my grandfather's vision for me that eventually led me to seek the guidance of other musicians to broaden my vistas.

One of the most precious moments in my life was coming under the tutelage of

Sangita Kalanidhi Shri D K Jayaraman . A guru whose care and concern for his students remain unmatched, Sri DKJ imparted more than music. The strong foundation in vocal music that he laid and the care he took in building my repertoire with the numerous compositions that he taught without holding back, have enriched me profusely. His unbounded generosity in having me, a youngster at that time, as his violin accompanist for most of his concerts, brought me into a space where the carnatic world set its eyes on me. Introducing me to many senior musicians that included his own eminent sister Sangita Kalanidhi Smt D K Pattammal, teaching me life lessons, providing me with every kind of support, be it musical, professional or even emotional, and radiating the joy of music and life are among the countless ways he has blessed me.

Learning from Vidvan Shri V V Subrahmanyam has been priceless. A Nada yogi that he is, his music transcends the mundane and transforms into an everlasting blissful experience. A complete musician, his playing defines the art of violin playing, showcasing perfect technique and profound music. Apart from his mellifluous solo renditions, the experience of his violin playing merging in unison with the vocalist, resonating like a second voice stands unparalleled. This has been one of my deepest influences, impressing upon me the need for immense sensitivity and poise, while accompanying and performing solo.

Sangita Kalanidhi Smt M S Subbulakshmi has been a constant presence in our household. Right from when I was in my mother's womb, I have soaked in her blissful music all my life. Her presence in my life has been ubiquitous. Learning from her, performing with her and being

THE MUSIC ACADEMY MADRAS

a recipient of her limitless affection and care is a huge privilege for which I'm very grateful.

I have also had the exceptional good fortune to be associated closely and accompany in concerts doyens such as Sangita Kalanidhis Shri Semmangudi Srinivasa Iyer, Smt D K Pattammal, Smt T Brinda and Shri K V Narayanaswamy. To sit at their feet and learn music, that was burnished with their long-lasting experience, was something very special. The collection of compositions and the artistry of music that each one of them has imparted, so meticulously and lovingly remain with me as priceless treasures for which I'm ever grateful. These were all moments of intense engagement with the art form. The love and care they showered on me in addition to generously sharing their vidvat, shaped my sensibilities, both musical and otherwise.

I have also received reflective counsel from Sangita Kalanidhi Shri T N Krishnan. Having grown up idolising his style, his music has left indelible imprints on my own. Also, I have drawn much from the spirit of Vidushi Smt N Rajam's exquisite violin artistry.

Words cannot do justice to the role that my Gurus have played in moulding me. It fills my heart with immense gratitude to reminisce about them.

I am very thankful for the support that I have always received from senior musicians such as Sangita Kalanidhis Smt R Vedavalli, Shri N Ramani, Sri T Viswanathan, Sangita Kala Acharyas Smt T Mukta, Smt Rama Ravi and Smt Suguna Varadachari, Shri V Subrahmaniam, Smt Ritha Rajan and Smt R S Jayalakshmi ; Vidushis Smt Nirmala Sundararajan, Smt Sugandha Kalamegham, Smt Parassala Ponnamal, Sangita Kalanidhis Smt Sudha

Ragunathan, Smt Aruna Sairam, Vidvan Alepey Venkatesan and others. I have also enjoyed the privilege of sharing the stage with esteemed veteran percussionists.

To have a good group of peers with whom one can have a meaningful and symbiotic relationship is a joy and delight - Vijay, (with whom I performed my very first concert on a Shankara Jayanti day), Sanjay, Unnikrishnan, Jayashri, Sowmya, Nityashri, Sangeetha, Krishna, K K Ravi, Vittal Ramamurthy, J Vaidhyathan, Arunprakash, Manoj, Varadarajan, Karthick, Purushotham , K R Subrahmanyam , V Lakshminarayanan, Savita & V Kartikeyan, and Nandini & Harish are amongst those with whom I have shared music passionately. The numerous discussions and debates, sharing the stage with them, listening to concerts and simply spending time with them are memorable moments that I deeply cherish.

The Youth Association for Classical Music, that we were all part of, was a splendid movement that united us with music and a spirit of camaraderie.

My music was also much nurtured and encouraged at my school, Padma Seshadri Bala Bhavan and later at the Ramakrishna Mission Vivekananda college. Mrs YGP, my teachers at school and my professors at college always urged me to pursue my passion.

Performing at diverse famed venues, around the world, including the United Nations at New York, where I performed alongside Smt Sudha Raghunathan for the centenary of Sangita Kalanidhi Smt M S Subbulakshmi, presented by Sankara Nethralaya, has been a rewarding experience that has drawn me close to several connoisseurs of art.

THE MUSIC ACADEMY MADRAS

I acknowledge with thankfulness the unflinching support extended to me by various sabha organisers and knowledgeable rasikas world over.

My association with the Music Academy goes back a long way. Since my school days, every single day of the December season would be spent at the academy along with my grandfather. I have literally grown up here listening to several concerts at this wonderful auditorium. In fact two photographs taken at this venue are very dear to me. One, me as a 10 year old, seated with all the greats during the group photo session in the year Smt T Brinda was awarded the Sangita Kalanidhi. The other, me as an 11 year old, with Smt M L Vasanthakumari just after she received the Sangita Kalanidhi.

Participating in the music competitions conducted by the Academy was joyfully challenging and something that I looked forward to. It was in the year 1986 when I was singing, at the behest of the judge Vidvan Shri Tanjore Upendran, for the participants of the mridangam competition, that something interesting unfolded. I was led away from the competition room and ushered on to this stage to accompany Smt Nagalakshmi Lakshmanan as the scheduled violin accompanist did not show up. It is quite interesting that I played my first concert at the Academy with a borrowed instrument and even borrowed attire! From then, my performances at the Academy has been an unbroken sequence.

This year marks the 250th birth anniversary of Shri Muttusvami Dikshitar. It is my blessed fortune that I belong to Shri Dikshitar's illustrious shishya parampara through my esteemed gurus Sangita Kalanidhis Shri D K Jayaraman & Smt D K Pattammal and Vidvan Shri V V Subrahmanyam. Having had

an opportunity to learn in depth and internalise the compositions of Dikshitar, I deem it a great blessing to receive the honour this year. The music of the Trinity is beyond compare. Their music has been preserved and passed on to the future generations by their shishya paramparas to which the world of carnatic music should be ever indebted. Shri Subbarama Dikshitar, hailing from the family of Muttusvami Dikshitar, has gifted us with the magnum opus Sangita Sampradaya Pradarshini. It is an authentic treasury of the compositions of Shri Muttusvami Dikshitar and other great composers, as well as a comprehensive treatise on sangita lakshana. The study of the Pradarshini is very vital to the understanding of the Dikshitar parampara in particular. Thanks to the Music Academy, the original Telugu edition has been translated into English, thereby enabling a wider access to this monumental publication.

The Dikshitar tradition is also an inspiration to the art of violin playing. Contributions from countless musicians down the ages have shaped and perfected the art of violin making and performance. We owe much to all those who have put in their life and soul into perfecting this. That the violin complements vocal music in all its gamaka subtleties has made it an integral and indispensable part of carnatic concerts today. One style of playing emphasises the gayaki bani on the violin - to play in the manner in which one renders the music vocally. The other style is focussed towards exploring the violin in its instrumental dimensions. While the latter is also charming in its own way, with great musicians having mastered it, I personally resonate with the gayaki bani. As with any instrument, the violin also demands specific fingering and bowing techniques to play the gayaki bani. Students who wish to adopt this

bani should learn and practice, in the appropriate manner to bring out all the nuances of this style. Also, training in vocal music is absolutely essential for the violinist to bring out the bhava or emotion in the playing.

Every genre of music has its greatness, its intrinsic beauty- something that makes it rare and special. Carnatic music, as a genre, is characterised by its unique soundscape, gamaka structures, compositional masterpieces and rhythmic intricacies. It is of paramount importance that this beautiful soundscape is never sacrificed in a performance. Cross cultural, multi genre concerts are interesting experiments. They do serve as a conduit to taking Carnatic music to a global stage, to varied audiences, earning their adulation and applause. But one must be careful to ensure that the integrity of the Carnatic sound, the crest jewel of the art form remains intact.

Every raga is beautiful. The realm of carnatic music is defined by a deeper understanding of raga. While we have seen the emergence of multiple new scales, garbed into a raga form we have several ancient rakti ragas that are shelved for reasons unknown. It would be heartening to listen to these ragas being delineated and presented in all their grandeur in concert performances. Likewise, several beautiful compositions by great vaggeyakaras that have never seen the light of day, should also be presented in concerts.

Carnatic music has the most enjoyable blend of the kalpita and kalpana elements. The ability to blend both these elements in good measure is the true hallmark of a musician.

The intricacies of myriad languages are seen in compositions. One has to appreciate the beauty of every language.

Sahitya and sangita are of equal importance in a composition. It is only in taking due cognizance of both that one can experience a composition in its entirety. Great vaggeyakaras have given us much to marvel at in their works - raga, tala, bhava, yati, prasa, shlesha, prayoga etc.

Art thrives on imagination and interpretation. But, it is important to temper one's freedom to improvise with restraint and respectful refinement. The pinnacle of creativity should be laced by the golden arc of thoughtful discernment, a quality that defines the true calibre of a musician. Kalidasa in his Malavikagnimitram says

पुराणमित्येव न साधु सर्वं
न चापि काव्यं नवमित्यवद्यम् ।
सन्तः परीक्ष्यान्यतरद्भ्रजन्ते
मूढः परप्रत्ययनेयबुद्धिः ॥

Not everything that is ancient is necessarily sacrosanct nor are newer ideas to be summarily rejected. To eschew simplistic dichotomy and adopt an unbiased introspective bent of mind will undoubtedly open up delectable dimensions of the art, never experienced before. Any meaningful artistic pursuit needs both roots and wings. True intellectual and artistic maturity lies in the dexterous balance of these polar opposites. The path to this inner search for a musician lies in complete surrender and implicit devotion to the tenets of the art form. This attribute enables musicians to carve a niche for themselves.

When one submits oneself respectfully and with a sense of joyous abandon to the art form, the psyche of the musician naturally transcends all disparities. In the sublimity and the ecstatic heights that the music uplifts them to, mundane and trivial differences lose their ground. It will be a milestone when the artistic fraternity

THE MUSIC ACADEMY MADRAS

achieves this state and I am supremely optimistic that the day will dawn soon.

The musician or an artiste is not merely a performer. A concert is as much an educative experience as it is entertaining. It is the responsibility of the musician to retain the integrity of the art form, not compromise on values, elevate the rasikatvam and create an experience that is ethereal. A concert is a beautiful space where artists blend, with their skills, thought processes and imagination, to create in tandem, an atmosphere of pure joy. It is neither a cacophonous war zone, nor a competition to prove one's mettle, pitching oneself against the other. It is a mutually respectful dialogue with one another that stimulates each of the artists to give their best, and engages the audience. Such a concert will pave the way for the audience to receive the music happily sans any kind of pre-conceived notions.

Each musician has a streak of creativity to compose. That can be inspired by an exquisite raga phrase or a rare linguistic find. My tryst with composing and setting to tune has been unequivocally inspired by the Sangita and Sahitya of the greats. It is important to internalize the grammar of composing. Designing a musical attire to poetry is an art by itself, one that involves understanding the spread of the lyric, the spirit of the language and most importantly the emotion of the poetry that is to be set to music. Perhaps the most important thing to remember in this context is to understand that this is an exercise to give shape to our creative instincts and not an arena to proclaim one's prowess.

We live in the era of social media. It is an undeniable fact that while it has its advantages, it also serves to influence and shape reality, in rather unfortunate ways.

It is not uncommon to see instances where a frenzied hype is created, or mediocrity is fanned and even worshipped. Young minds are swayed, intimidated by this force. There has been many an instance when I have seen youngsters, depressed, desperate, and disillusioned by the overwhelming impact of social media. One moment of thoughtlessness can have far reaching implications. It is important for both artists and rasikas to be cognisant of the ramifications of their actions when engaging with social media.

We owe it to our students to make their musical journey a safe, and pleasant experience. I have been blessed with extremely talented students, most of them professional performing star musicians. Sharing music with my disciples is always soul satiating. Basking in their love and affection is one of the ineffable joys of my life.

Art, especially carnatic music, has been chiseled and crafted by the Gods and the greats. To partake of this ambrosia that is Carnatic music is inexplicable bliss.

“svara rAga sudhA rasa yuta bhakti svargApavargamurA”

I thank the President and the committee members of the Music Academy for bestowing me with this prestigious honor. The morning sessions this year are dedicated to Shri Muttusvami Dikshitar. We have a fascinating line up of lecture demonstrations that will be presented by eminent musicians and scholars, promising a fund of information and learning. I seek the grace of God and my Gurus, and everyone's good wishes for the successful conduct of the 99th annual conference and concerts of the Music Academy.

Namaskarams once again.
